

HYGIASEPT®

INTERIOR SPACE DISINSECTISATION BY MICRO-DIFFUSION

HYGIASEPTYL® AQUEOUS BASE

Insecticide treatment

Ref: HI 130

APPLICATIONS:

Destroys flees, bugs, ants, cockroaches (in basements, service shafts, etc), moths, lice, flies, mosquitoes, wasps, acarids, etc.

DESCRIPTION:

Appearance: milky white liquid

Nature: mixture of Permethrin and tetramethrin, synergised by piperonyl butoxide.

pH : 7.5 ± 0.5

Density: 1.000 ± 0.0010

PROPERTIES:

Shock action enhanced by the presence of the synergiser that accelerates penetration of active materials.

Very efficient flushing-out effect.

Long-lasting.

Economical.

Does not stain.

Low toxicity to humans and other warm-blooded animals.

SECURITY:

Formula registered with the Paris Anti-Poison Centre (F. Widal Hospital - Tel. +33 (0)1 40 37 04 04).

As with nearly all insecticides, its active ingredients are toxic to aquatic fauna and cold-blooded animals.

METHOD OF EMPLOYMENT:

Product ready to use undiluted without additives with the range of **HYGIASEPT®** diffusers

Shake the jerrycan before use.

RECOMMENDATION:

Seal off the premises before treatment.

Use after evacuating people and animals from the premises.

Very toxic to fish and bees.

Only for professional use.

Susceptible to frost.

Respect contact time and handling recommendations.

Safety data sheet available on demand.
