

HYGIASEPT®

INTERIOR SPACE DEODORISATION BY MICRO-DIFFUSION

HYGIASEPTYL® DMO **Deodoriser: Odour Molecule Destroyer** ***Ref : HD 140***

APPLICATIONS:

Treatment of all premises presenting with odour problems:

- Sports halls
- Hostels, retirement homes
- Village halls, administrative premises
- Public buildings
- Public venues, hotels
- Cars, public transport

DESCRIPTION:

Appearance: Colourless to translucent yellow liquid.

Biodegradability: Over 95%, entirely water-soluble.

pH = 8 ± 0.5

Density : 0.99 ± 0.010

Scent: Musky lavender.

PROPERTIES:

Long-lasting, preventative and curative action, DMO gives off a pleasant perfume.

Immediate results.

As a result of its ever present, light and fresh-smelling composition as well as its specific formulation, DMO is synonymous with cleanliness and hygiene.

DMO has a double action:

- it acts on existing molecules,
- it slowly releases active components thus assuring effective action for several days.

It is a technological and ecological product that acts on polluted surfaces by migration and diffusion.

SAFETY:

S24: Avoid contact with the skin

S26: In case of contact with the eyes, rinse abundantly with water.

METHOD OF EMPLOYMENT:

Product ready to use undiluted without additives with the range of **HYGIASEPT®** diffusers

Always wait a minimum of 30 minutes after treatment.

If necessary, ventilate the premises.

RECOMMENDATIONS:

Store away from heat.

Only for professional use.

Respect contact time and handling recommendations.

Safety data sheet available on demand.
