

Dry Micro-diffusion

EASYSEPT®

NF T 72-281 Standard

www.hygiasept.com

HygiaSept
L'hygiène active

DESCRIPTION & ADVANTAGES OF THE EASYSEPT DIFFUSER.

Easysept is a professional portable diffuser for dry micro-diffusion and can be carried easily in all premises to be treated. It is light, resistant and easy to handle.

Easysept is equipped with a demountable flexible and a multi-directional head for a targeted treatment. It is then possible to treat mattresses, curtains, hangings and many places which are not accessible to other process.

This function is especially used to destroy insects and to regularly disinfect air-conditioning ducts and air shafts, bath inserts : the favourite destinations for bad odours and undesirable insects.

The conception of Easysept is very elaborated:

- Automatic cleaning system at the end of the cycle to evacuate every liquid leftover before the compressor stops.
- Load miser for a constant discharge and an homogeneous formation of fog.
- A smart programme timer which adapts spraying parameters to the product used.

SPECIFICATIONS	
Power :	120 W
Outlet pressure (air) :	3,5 bar
Flexible length:	1,20 m
Bodywork type :	Portative
Bodywork material :	Painted Aluminium
Overall length :	35 cm
Overall width :	23 cm
Overall height :	36 cm
Weight empty :	7,7 kg
Power supply :	230 Vac
Replacement Container :	2 litres jerrican
Nozzle :	Delrin

FOR DISINFECTION
ACTIVITY TABLE - HYGIASEPTYL® SPRAY / DS & HYGIASEPTYL® SPRAY PLUS
(See technical data and safety data sheets)

	HYGIASEPTYL SPRAY / DS	HYGIASEPTYL SPRAY PLUS
Bactericidal activity proved according to standards : EN 1040 EN 1276 NF T 72-171 (Spray Plus) NF T 72-281	<i>Escherichia coli</i> <i>Enterococcus hirae</i> <i>Legionella pneumophila</i> <i>Pseudomonas aeruginosa</i> <i>Salmonella enterica</i> <i>Staphylococcus aureus</i> <i>Mycobacterium smegmatis</i>	<i>Escherichia coli</i> <i>Enterococcus hirae</i> <i>Pseudomonas aeruginosa</i> <i>Salmonella enterica</i> <i>Staphylococcus aureus</i> <i>Mycobacterium smegmatis</i>
Sporicidal activity proved according to standard NF T 72-231		<i>Bacillus cereus</i> <i>Bacillus subtilis var. niger</i> <i>Clostridium sporogenes</i>
Virucidal activity proved according to standard NF T 72-180 and EN 14476	Entérovirus polio 1 Adénovirus type 5 Orthopoxvirus de la vaccine Influenza Virus Type A-H1N1	Entérovirus polio 1 Adénovirus type 5 Orthopoxvirus de la vaccine
Fungicidal activity proved according to standards EN 1275 EN 1650 NF T 72-281	<i>Candida albicans</i> <i>Aspergillus niger</i> <i>Penicillium verrucosum</i>	<i>Candida albicans</i> <i>Aspergillus niger</i> <i>Penicillium verrucosum</i>

FOR DISINFECTION- HYGIASEPTYL® FOOD SPRAY
(See technical data and safety data sheets)

Bactericidal activity proved according to standards EN 1040 NF T 72-151 NF T 72-171 spectre 4 (eau dure 30°F)	<i>Escherichia coli</i> <i>Staphylococcus aureus</i> <i>Enterococcus hirae</i> <i>Pseudomonas aeruginosa</i>
Bactericidal activity proved according to standards NF T 72-301	<i>Salmonella enterica</i> <i>Listeria monocytogenes</i> <i>Lactobacillus plantarum</i>
Fungicidal activity proved according to standards EN 1275 NF T 72-201	<i>Candida albicans</i> <i>Penicillium verrucosum</i> <i>Cladosporium cladosporioides</i> <i>Abisidia corymbifera</i>

FOR ODOUR DESTRUCTION - HYGIASEPTYL® DMO
(See technical data and safety data sheets)

Long-lasting, preventative and curative action, DMO gives off a pleasant perfume.
Immediate results.

As a result of its ever present, light and fresh-smelling composition as well as its specific formulation, DMO is synonymous with cleanliness and hygiene.

DMO has a double action:

It acts on existing molecules,

It slowly releases active components thus assuring effective action for several days.

It is a technological and ecological product that acts on polluted surfaces by migration and diffusion.

FOR DISINSECTISATION- HYGIASEPTYL® BA INSECTICIDE
(See technical data and safety data sheets)

Micro-encapsulated bifenthrin is an insecticide which operates especially by contact but also by ingestion.
Thanks to encapsulation and a great light stability , bifenthrin makes a very long-lasting protection possible.

ATTENTION !

Seuls les produits de la gamme Hygiasept®
doivent être utilisés dans ce diffuseur.
Nous déclinons toute responsabilité
en cas d'utilisation non conforme.

CAUTION !

The use of products outside the Hygiasept®
range are not recommended with this diffuser
and if used, we take no responsibility.

Mode d'emploi

Sélectionner le temps de diffusion
à l'aide des touches ⊖ et ⊕.
Appuyer sur **S** pour démarrer.
Le temps de diffusion s'affiche
et se décompte.
A la fin de la diffusion,
la purge automatique se déclenche.

Instructions for use

Select diffusion time
by using ⊖ and ⊕ buttons.
Press the **S** button to start.
The screen shows the diffusion time
and count down starts.
At the end of the diffusion cycle,
automatic bleeding starts.
